

Updates since last meeting

Ollie John - 16/11/2021

Welsh Government had highlighted that they will be establishing a clinical advisory group and offered the opportunity for the RCMHEAG to have representation on the group. The draft ToR and information will be shared with members once received.

It was agreed to consider a joint response on the Senedd Health Committee inquiry on the impact of Covid on Health and Social Care. This may be drafted in the new year.

Actions since last meeting (19th October)

At the last meeting, several representatives from HEIW presented an update on the development of the Mental Health Workforce Plan. The slides from the presentation had been received and it was agreed to write formally to HEIW in feeding back on the presentation.

There hadn't been enough time to consider discuss the prospective work on staff wellbeing at the meeting, that will be updated over email and discussed at an upcoming meeting.

Members have been asked to provide any case studies to further highlight joint working across services. A case study on support for early diagnosis of dementia will be shared with the group to help inform.

Today's meeting (16th November)

Dr Allan Wardough, who is leading on the work of the National Clinical Framework will be attending and presenting.

Dr Liz Gregory will also be attending and presenting on the work of the NYTH / NEST framework.
